

AAX_CLogTaperDelegate
::NormalizedToReal

AAX_CLogTaperDelegate
::RealToNormalized

AAX::SafeLog

```
graph LR; A["AAX_CLogTaperDelegate  
::NormalizedToReal"] --> C["AAX::SafeLog"]; B["AAX_CLogTaperDelegate  
::RealToNormalized"] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'AAX_CLogTaperDelegate' followed by '::NormalizedToReal' on a new line. The bottom box contains the text 'AAX_CLogTaperDelegate' followed by '::RealToNormalized' on a new line. On the right, there is a gray rectangular box with a black border containing the text 'AAX::SafeLog'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both methods of the AAX_CLogTaperDelegate class call the AAX::SafeLog function.
